

Code Training Overview

The Little Wandle Code training will equip all staff with the knowledge they need to teach successful phonics interventions and to support children with reading in class.

To ensure that all staff are as well-prepared as possible and any questions can be covered in real time, leaders should be part of the training sessions alongside teaching staff.

Each of the seven training modules has an accompanying handout summarising the key training takeaways. The tables below show who each module is for, what each module covers and how long the training sessions take.

Module 1: Teaching reading with Little Wandle Code	Module 2: Assessments and Reports	Module 3: Implementing the programme	Module 4: Teaching Start the Code	Module 5: Teaching Grow the Code	Module 6: Teaching Complete the Code	Module 7: Ensuring progress
